DOLPHIN wave 300

Cleans pool floor and cove

Recommended for large commercial pools

The Dolphin wave 300 is the professional answer for systematic, thorough and reliable cleaning of even the largest commercial pools. Its intelligent navigation system ensures complete pool coverage of every pool type and shape. The wave 300's actively rotating brushing system was specifically designed to brush, scrub and remove dirt from pool surfaces. But the real power of wave 300 lies in its state of the art man-machine-interface (MMI). The wave 300's MMI is an interactive digital control panel that gives the user full control of cycle time, delayed start, remote steering, even self-entry and submergence into the pool.

Scanning

Advanced robotic scanning ensures complete pool coverage

MMI

Powerful man-machine-interface puts full operational control at your fingertips
